each man in Washington is so engrossed in his own sphere that he is not so well up on all topics as the average reader, and these sketches cover everything.

Ogden Mills and the president both made good speeches. I think those things do a lot of good to help keep those old big boys' feet on the ground.

But say, I would stand on my head to see another one.

Woodin issued regulations pertaining to licensing of gold for export, for industrial use and for other purposes permitted under emergency proclamation by the president.

Auto drivers who travel in Western Pennsylvania are most pleased to discover that a large number of new highway improvements have been made in the past year or so. Many new tours of the countryside are now possible without getting off of improved roads.

It is certainly gratifying to hear the announcement from the county poor director that appeals for aid are decreasing. With the improvement in industrial conditions the demand for aid is decreasing. With the extension of gardening this spring, there should be a still further decrease from the demand for aid in the near future.

Next Sunday will be the 18th anniversary of the day when the Lusitania was sunk by German submarine. This was one of the principal reasons for United States' entrance to the World War.

Real summer temperature prevailed over the week end Saturday being an ideal day. Baseball, golf and other summer sports were the attraction in every section. Saturday afternoon, the mercury mounted to 84 degrees which is warm enough for anyone at this time of the year.

Auto traffic on the highways in this section on Sunday didn't look much like depression. Traffic was exceedingly heavy on many of the main travelled routes.

NEW PRESIDENT NAMED FOR PERU

43-year-old president who died as he lived—by the gun.

Under Martial Law. Martial law was declared throughout the nation and a strict censorship was clamped down. The national congress was called into immediate session and measures were taken to carry on national political activities during the crisis.

Sanchez Cerro was assassinated as he left Jorge Chaves Park, when he reviewed a monster parade of 25,000 recruits scheduled soon to leave for the front in Peru's conflict with Colombia over Leticia.

His assailant, Abelardo Hurtado De Mendoza, was literally torn to pieces by infuriated members of the president's bodyguard. Two soldiers were killed and several others wounded in the riot which followed the assassination.

Police, describing Mendoza as a former newspaper reporter, 35 years old, declared he was a member of the Aprista party, opposed to Sanchez Cerro.

Another nice way to guarantee deposits would be for old and young to say "Fooy!" when they see a crook.

Cuba Mobilizing Federal Defense

Move To Prevent Possible Invasion Of Cuba By Revolutionary Forces

ALL MEETINGS ARE FORBIDDEN

By CLIFFORD GALLOWAY International News Service Staff Correspondent

HAVANA, May 1.—President Machado today pressed forward with mobilization of federal defense forces to prevent possible invasion of Cuba by revolutionary forces financed in the United States.

Following outbreak of uprisings in Oriente and Camaguey provinces, he cancelled all leaves of army and navy officers and strengthened north coast garrisons against possible expeditions from Florida, where rebel elements are reported to have been gathering for weeks.

It was feared revolutionary leaders would try to take advantage of possible May day disorders for attacks, and consequently all labor assemblages were forbidden.

Score Killed. New estimates showed that at least a score of government troops and revolutionists were killed in the fighting in Oriente and Camaguey provinces.

According to private advices from Santiago, where recent bitter fighting raged, federal troops apparently had the situation under control, but several rebel bands were still at large and unsubdued.

After being restored, communications out of Camaguey were cut again by raiders who made off with horses and arms from Victoria De Las Tunas. It was believed some government troops had joined the insurgents.

The revolt seemed to have gone astray, however, when plans to seize a Pan-American Airways plane at Santiago fell through.

addict, according to the police, and has required the services of a physician several times since being brought to the local jail.

Four fine fur neckpieces were also found in the car in which she and her husband were riding, and are a source of further investigation.

Early Saturday evening, the police here were informed by the New Castle Dry Goods Company that six dresses had been stolen by a woman, who had entered a Chrysler coupe, bearing Ohio license 673-256, which was parked nearby and in which there was a man. They had driven away together.

The police here telephoned the Youngstown authorities at once and asked that the car and its occupants be apprehended. An hour later, the Youngstown police advised the au-

thorities here that they had the car and its occupants and had found five new dresses and four new fur neckpieces in it.

Local officers and the manager of the local store went over after midnight and the dresses were identified as the property of the store here. The woman admitted taking them and came back, driving her own machine. Her husband refused to come without extradition papers and is being detained by the Youngstown police.

Boy Scout News

TAKE TRAINING COURSE Retiring to Camp John M. Phillips, Boy Scout leaders of New Castle and other Lawrence county points studied the Part 2 section of the "Elements of Scoutmaster-ship" which they are required to take for special honor work. Council leaders were in charge.

The men gathered at camp at 2:30 on Saturday afternoon and returned to the city late yesterday.

INSPECT SCOUT CAMP The Boy Scout council camping committee, headed by W. G. Ayres made an inspection of camp yesterday afternoon for the purpose of finding out just how the camp sleeping cabins could be moved around so as to make the best arrangement for the new troop camping work. The committee members walked around a great deal of the site and finally marked several spots to which the cabins could be moved with reasonable help. Arrangements are being started to have the necessary equipment and materials lined up, and volunteer workers will then be called on for help; it being expected that a large number of loyal scouts will respond to this. A comprehensive plan for future development will then be worked out, and activities will go forward along these lines. This will involve cooperation on the part of all council troops, but with the fine support that has always been given, council leaders are sure that the plans will come through.

CHICAGO'S PROBLEM

THE plight of Chicago school teachers with \$30,000,000 in
back pay due them is one to excite the sympathy of the na-
tion. Many of these teachers are said to have lost their homes
and some have taken to panhandling in the streets to get money
with which to buy food.

The demonstration staged the other day by 5,000 of these
teachers who stormed through the financial district and created
almost riotous scenes in banks they invaded to demand that the
financial institutions buy tax-anticipation warrants so the city
could pay them their back salaries may not have been a wise
move, yet it may serve to impress upon Chicago officials the
serious situation the city faces.

The banks, of course, can not buy the warrants unless they
have reason to believe the taxes they represent will be paid. To
do otherwise would endanger the savings of thousands of de-
positors. The city is without funds because property owners re-
fuse to pay taxes and the city is without authority to force them
to pay until the legislature gives it this authority.

Chicago needs to do something quickly to restore its
credit. It may boast of its "Century of Progress" exposition
soon to open, but it can make only poor claim to being a city of
progress as long as it permits its teachers and other employees
to go unpaid.

MAY DAY—CHILD HEALTH DAY

Maia was the mother of Mercury, according to tradition, and on
the first day of the month which has been named after her it was the
custom of the ancients to offer sacrifices in her honor, we too, observe
the day, but in a different and, we believe, a better manner.

The crowning of the queen of the May and the Maypole dance
are beautiful ceremonies which are held each year, but the designating
of May Day as Child Health day has given a new meaning to the event.
President Roosevelt, in accordance with recent custom, issued a procla-
mation calling upon American citizens to observe the day as one devoted
to the health of the child.

Few public statements have been made by former President Her-
bert Hoover since he retired to private life. One of them, however, is
devoted to the subject of Child Health day. In it he says: "Progress
in the improvement of health and protection for children has made re-
markable advance in the past fifteen years. We have only to look at
the decrease in child mortality to see that."

As Mr. Hoover also says, the day serves to bring before the people
the need of this service and the methods by which the remarkable re-
sults are obtained. The day, sponsored by the American Child Health as-
sociation, is supported by every faith and creed. On almost every con-
ceivable subject there is a difference of opinion, but there is none on
the premise that the health of the child should be guarded.

BUYING INCREASING

A significant move in the merchandising field is reported from New
York where several manufacturers recently have withdrawn prices for
future delivery.

The action followed a sharp rise in the wholesale market, with a
large increase in the number of out-of-town buyers canvassing goods and
prices.

Withdrawal of prices on future deliveries can only mean that the
manufacturers sense a rapidly increasing demand for goods on the part
of retailers, with consequent rising prices. This outlook is one that has
been in prospect for several weeks but which was made more evident by
the inflation program contemplated by Washington.

Retailers' stocks generally are low as result of the hand-to-
mouth policy of buying that has been followed. Indications of rising
prices already are beginning to send dealers into the markets, with the
probability that they will buy in much larger quantity than they have
been doing. This is the recognized procedure, just as falling prices cause
orders to be held to as small proportions as possible.

Prospective buyers who fail to supply their needs soon may find
that they made a serious mistake by waiting, in the belief that the long-
forecast general upturn had not begun.

YOUNG CRIMINALS

Some distressing facts are contained in statistics compiled from
fingerprint cards in the files of the United States bureau of investiga-
tion. The wide prevalence of crime among youths is the most shock-
ing revelation.

According to the statistics, one out of every five criminals whose
record is in the bureau is under 21 years of age. Youths of 19 exceed
in number those of any other age group in arrests during the first
quarter of the present year.

The most common crime charged to youths was theft of auto-
mobiles. Of the total of persons arrested on this charge, 45.8 were of
persons under 21 years of age. Arrests for burglary showed that 38.8
per cent were boys in their teens.

One saving feature of the statistics was the comparatively small
number of women arrested. Only 6.5 per cent were females.

Another fact to claim special attention was that prison terms have
a small deterrent influence upon offenders. About 35 per cent of the
persons arrested had previous records in the bureau's identification cards.

MAKING PEOPLE OVER

Have you a friend who would be
perfect—"if it weren't for one
thing?"

Is there some one you love whom
you'd like to change in some way?
You labor with them, suffer over
them, pull and tug and try to make
them over?

And does it work? Have you ever
changed a person in accordance
with your own ideas and then
found him less interesting than be-
fore?

Sure you have. Everybody has.
Everybody, at least once, has tried
playing at God and learned that the
job is too big for one small, imper-
fect, restless human being.

The thing to remember, I try to
keep in mind, is that we are all
much alike and all different, but
that though the difference is usu-
ally small, it is the most impor-
tant thing about us.

It's the difference that makes the
personality, gives the charm and the
flavor to people. Every day's dif-
ference from every other day. Every
flower is different. Every rock,
every mood, every dream, is differ-
ent and we are never wise enough
to know which part is insignificant
and which is essential.

We are strangely put together,
too. Hinged, jointed, wired, pro-
portioned, delicately fitted and dove-
tailed more ingeniously than any
crossword puzzle or even the line-
type machine on which these words
are set.

You are like that. So is your
friend. A part of that friend of-
fends or irritates you, and you war
and plot against that part. You
shame it, you kill it, you take his
caution or drive out his enthusiasm
and when these are gone all the
flavor of his personality is out of
him for you.

You played at God in such meager
way, not by building but by tearing
down, and the end too often is
tragedy or a victory that costs you
more than you have gained.

That's what you get for trying to
make people over.

THE NEW HOME

Conditions have made it necessary
for you to save your nickels.
Necessity for retrenchment has
brought you in closer contact with
your family.

It cannot be denied that despite
the curtailment of expenses requir-
ed there is a better family feeling
in homes than there has been for
many years.

There are more family councils,
more combined planning and more
hours spent at home than former-
ly.

During the jazz age you caught
that spirit and gadded about more
than you should have done.

It required more to interest you
and amuse you when every one was
thoughtless and careless and irre-
sponsible.

You wanted to be on the move in
your leisure hours.

Home was a way station—you had
money to spend and you spent it.
Family conferences were not need-
ed or thought of because things
seemed to be always coming your
way.

Each member of the family had
some special amusement and was
able to follow his or her personal
inclination.

Pleasure was the great goal, but
now you are thinking, you know
that mere pleasure, neither profit-
able nor possible, gets you nowhere
worthwhile.

Nor long outlive the breath of

But brave of heart we play our part
Each one of us a lovely thing."

And to the changing season bow,
And row by row to death we go,
We have our share of glory now."

Enjoy our beauty while you may
And like us give, the while you live
Your utmost best to every day."

"And what are those enormous

Relation Of Embargo To Possible State Of War Is Con-
sidered By Country While Debate On Rights
Of Congress Develops

Comment on the proposed grant-
ing to the president of the right to
declare an embargo on shipments of
arms to other countries is provoked
by the passage of the measure by a
large margin in the house. There
are wide differences of opinion as to
the wisdom of such action, one
side emphasizing the need of au-
thority to act in concert with neu-
tral nations while the others insist
that by constitutional provision con-
gress should share in such acts as
might lead to belligerency for the
United States.

"The danger of giving a president
so much power," according to the
BIRMINGHAM AGE-HERALD, "was
envisioned by congressmen when
they argued that it would enable a
chief executive to plunge the nation
into war. Such arguments are just
exercises in rationalization. If, un-
der the Kellogg treaty, we are not
to be in a position to make ourselves
felt when a conflict threatens, then
that pact is of little consequence.
If such readiness for adequate ac-
tion cannot be conferred on the
president because he might misuse
it, why do we permit him to con-
tinue as commander-in-chief of the
army and navy, and so conceivably
capable of flinging us into war on
his own initiative? If the value of
an arms embargo is infinitely multi-
plied by an understanding with
other powers, we need not be dis-
turbed by the yelping of the isola-
tionists."

"The powers that it invests in the
chief executive," in the opinion of
the BUFFALO EVENING NEWS,
"are needed by the government to
make effective certain outstanding
foreign policies of the United
States." Answering the argument
that "it will lead to war," that pa-
per holds that the contention is
"clearly absurd," at the same time
pointing out that "even if it had
any validity, the resolution does not
give the president power to declare
a unilateral embargo, which, of
course, would be not only ineffective
but also dangerous." The Evening
News continues: "The measure sim-
ply gives power to the president to
negotiate an agreement with the
other arms-producing nations. The
government that is singled out as
the treaty-breaking state would,
therefore, be faced with the oppo-
sition of many powerful countries,
and might, therefore, be forced to
revise its policies. The idea that it
would go to war against all of them
is too fantastic for belief."

"Unified action on the part of
all ammunition-producing coun-
tries," is declared by the HART-
FORD DAILY TIMES as "indis-
pensable to practical results." The
Times further comments: "A truly
effective embargo policy, once it be-
came established as a universal rule,
would remove one alleged factor
from the war-threat situation, namely, the supposed selling of inter-
national munitions manufacturers in
the armed conflict anywhere in the

it is bound to fall far short of ac-
complishing its purpose as a deter-
rent to armed conflict."

stroy French soldiers. That horri-
ble power was demonstrated again
when German manufacturers sold
barbed wire to France to make bar-

thousands of German lads on the
battle front hung and perished."

THE JERSEY CITY JOURNAL
points out that "the bill merely
makes the same essential assump-

embargo power" as "fanciful" while
the TOPEKA DAILY CAPITAL re-

THE NASHVILLE BANNER sees in the
measure "a definite and practical
declaration that the United States
does not propose that a profiteering
spirit in this country will be per-
mitted to place an obstruction in
the path toward international
peace." THE LINCOLN STATE
JOURNAL expects "temperate use
of the power." THE HOUSTON
CHRONICLE advises that coopera-
tion with other countries "should
commend itself to a peace-loving
people."

The doctor said: "When Adam's

City Officials Seek To Solve Dilemma Of Aged Canadians

City officials are hopeful of finding some way to solve the dilemma of Mr. and Mrs. William Ballentyne, "man and woman without a country." Ballentyne is aged 76. His wife is also "up in years." Ballentyne is jobless but hopeful of getting a job. City officials hope to find for him and his wife employment on a farm or secure a farmhouse and a plot where they can grow food.

More than three years ago Mr. and Mrs. Ballentyne came here to care for one of their children who became seriously ill.

While here Mr. Ballentyne secured a job in the street department of the city.

Charges were made that he, not being a citizen of the United States,

owed allegiance to Great Britain and should not have a city job.

After Director of Streets Stanley Treser took office only citizens secured jobs and naturally Mr. Ballentyne was "let out."

Treser and other city officials communicated with the welfare department of the county of Lawrence.

Mr. Ballentyne and his wife were given transportation to Canada. Having been here more than three years they were denied admittance to Canada, it is claimed, and they returned to New Castle.

Solicitor White communicated recently with the labor department at Washington, it is said. However, no action has resulted on the part of Canada and it is said by Treser that Mr. and Mrs. Ballentyne have lost their citizenship there.

Central Safety Committee Meets

Causes Of Accidents Are Discussed By P. O. Co. Safety Leaders

Report made by the central safety committee of the Pennsylvania Power company at their monthly meeting at the New Castle office developed the claim that 56 per cent of "our total accidents are equally divided between the curb and the street intersection accidents." As a result, the committee recommended that all drivers be instructed to use caution when passing parked cars and be alert for cars pulling from the curb.

Among particular attention given to safety recommendations related to linemen's safety belts and first aid equipment.

The report relative to accidents showed most of them occur during the hours of 10 a. m. to noon and between 3 and 5 p. m. This caused the presumption that fatigue caused a let-down of drivers' vigilance. Vice President L. B. Round suggested that during these hours drivers stop driving and relax several minutes.

During the session T. L. Paden, electrical superintendent, presented to Mr. Round a No Accident certificate and trophy to the Pennsylvania Power company of the National Safety council for operating without a lost time accident during the six-month period from July 1 to December 31, 1932.

Those in attendance were P. L. Hutley, line superintendent at Sharon; J. A. Gardner, line superintendent at Zelienople; L. E. Remor, line superintendent at Greenville; S. R. Wilkison, line superintendent at New Castle; J. R. Mitchell, substation superintendent at Sharon; F. E. Kaatz, substation superintendent at New Castle; L. B. Christy, garage superintendent at New Castle; C. A. Iatonna, meter superintendent; L. B. Round, vice president and general manager; T. L. Paden, electrical superintendent; A. E. Miller, purchasing agent, and L. M. Shields, general right-of-way superintendent.

Rehearsing For Graduation Play

"Seven Keys To Baldpate" Will Be Presented On May 12

Commencement is in the air at the senior high school. Its first point of interest is the announcement of the play chosen for presentation by the graduating class on May 12. The choice this time is "Seven Keys To Baldpate," adapted for the stage many years ago by George Cohan. This melodramatic farce has been produced with great success wherever it has been played and the cast of seniors chosen by the dramatic coach, Miss Clara Hart-suff, is working enthusiastically to put the finishing touches on a big evening's entertainment.

Daily the sharp crack of a pistol shot and terrified screams break in to the academic quiet of the school on Lincoln avenue and for a brief moment the student-body within range of the auditorium takes a startled breath. Then with scarcely a ripple in the dutiful attention to P. O. D., Euclid, Cicero or Shakespeare, scholastic pursuits continue, broken only by the passing thought that rehearsals are in progress for the senior play.

If the stage exists to break the monotony of daily business, the graduating class has gone on record as to what it thinks is one way in which this may be done. "Seven Keys To Baldpate" calls for fast action, tricky effects of light, shadows, and black darknesses and ghosts, pistol shots, policemen, dead bodies walking about the halls, hundreds of thousands of prize-money changing hands and keys and keys and keys. In an age of speed the senior play has discarded all brakes and shoots from crisis to crisis without a halt.

Lawrence County Farmers Get Big Revenue From Production Of Eggs

AIDS STATE IN LEADING NATION

Production of eggs is a big item with Lawrence county farmers, statistics revealed by the Pennsylvania department of agriculture shows. Pennsylvania produces the most valuable egg crop of any state in the union, and the farmers of Lawrence county aided the state in piling up this record during the past year.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

The lass who wanted awakened early today so she could be Queen of the May wasn't disappointed, in all probabilities. With Daylight Savings Time in effect how could she miss?

It's the day for May Day fetes with sweet young things dancing hither and yon in their lace feet, the hussies, for householder goods where there is new wall paper. A day when truckers are on the move from dawn till dark, a day for re-adjustment and change, May Day.

It is also the day when long haired poets break out of their winter underwear to dash off sonnets and lays about the lovely spring, lambs gamboling on the green sward, and daffodils. It's also a good day to do some weeding.

Happy days looked to be here again Sunday afternoon on the highways. Crows that hadn't taken the air for months were on the concrete, everybody was in a hurry and from the number of cars out, the gasoline men must have done a land office business.

Even the Poet Laureate of the Slippery Rock wasn't immune from the attack of spring weather this morning and sent in a May Day effusion or sonnet that is supposed to be a dramatization of how he feels. (Ed. Note. He must feel terrible.)

The cowpicks shed their golden glow along the brooklet's bank, the lilies seem to promise blooms, the grass is green and the sun is out a bit and she turned it forward and hour later, and in order to be certain it was done his wife turned it on just before she went to bed. He was a bit early for the golf game, two hours early in fact.

This story may not be true but a Croton resident claims it. One of the Crotonites had a date to play golf yesterday morning. His arrangements called for nine o'clock Daylight Savings Time. To be sure he wouldn't forget to turn the clock forward he turned it at eight o'clock, his daughter thought she would help out a bit and she turned it forward and hour later, and in order to be certain it was done his wife turned it on just before she went to bed. He was a bit early for the golf game, two hours early in fact.

St. Vitus Auxiliary Attends Communion

A Number Of Interesting Speakers Are Heard At Breakfast After Communion

Some fifty members of the auxiliary to the Knights of St. Vitus were in attendance Sunday morning at the eighth annual communion breakfast event, which was held in the hall of the church after the members had attended the 7:30 a. m. Mass in a body and received communion.

The ladies of the auxiliary were served with breakfast by members of the Knights of St. Vitus.

Following the breakfast, a program was carried out, which proved of interest. The toastmistress in charge was Mrs. Helen Bongivengo. The guest speakers were Mrs. Kelly of the Catholic Daughters of America and Mrs. Frances Colao. Others who participated in the speaking program were Mrs. E. Factor, Mrs. Rose Ippolito, Mrs. Anna DePonso, Mrs. Philomena Venditto and Carm Sacco, president of the Knights of St. Vitus.

On Thursday evening at 7:30 o'clock there will be a special meeting of all those who wish to serve at the annual parish spaghetti dinner.

Iowa National Guard Commander Takes Charge Of Mob Investigation

TEN MEN FACE PROSECUTION

Civil Authorities Unable To Cope With Serious Situation In Mid-West State

(International News Service)

LE MARS, Iowa, May 1.—Authority of the civil courts in Plymouth county was suspended indefinitely today by Col. Glenn C. Hayes, commander of the national guardsmen here, as the military moved to prosecute ten men arrested since a mob of farmers abducted District Judge C. C. Bradley.

Officials of the "council of defense" of the Plymouth County Farmers' Holiday association, a group which for months held "unofficial courts" to settle farm finance matters, were among the five men arrested Sunday by the state militia, bringing the total to ten arrested since martial law was declared Friday.

Farmers Missing.

The additional arrests brought strong indications by Col. Hayes that all ten men seized as participants in the mob attack on Judge Bradley would be tried within the week by a military court martial, instead of in a civil court. The order of Col. Hayes suspended indefinitely the authority of the district justice and police courts.

Five squads of state militiamen sent out at dawn with lists of 40 men suspected of being in the mob, finished their work at dusk with only five additional prisoners under arrest. They visited 25 farmhouses, but most of the men sought were missing.

Employment Gains; Relief List Falls

SHARON, Pa., May 1.—Increased employment in valley steel plants, resulting in the largest payrolls for some time, has brought about a reduction of 300 families on the relief lists in the last three weeks. Director Earl R. Dresch said today. This is equivalent to elimination of from 1,200 to 1,500 persons, for whose maintenance relief agencies were responsible.

Mr. Dresch said that indications point to the possibility of about 250 more families again becoming self-supporting in the next two weeks and relieving the relief board of responsibility for their care.

Pirates Return To First Place When Hoyt Wins

Veteran Hurler Puts Pittsburgh Back At Top As Giants Drop Two

ROOKIE HURLERS WIN TWO MORE

By LES CONKLIN
International News Service Sports Writer

NEW YORK, May 1.—Waite Hoyt, American league castoff, may pitch the Pittsburgh Pirates to a pennant this year and cut a slice of world series melon for the eighth time in his long and checkered diamond career.

Hoyt has been with seven different big league outfits. He was considered all washed up when the Pirates gambled on him. They figured he could salvage a game now and then and fill in during double-headers, but right now he looks as good as any hurler on the staff.

The erstwhile schoolboy phenom, vaudeville songbird and undertaker hung up his second victory in as many starts yesterday when he enballed and interred the Cincy Reds, 8 to 1, lifting the Bucs back into first place in the National league race. He yielded only five hits and should have had a shutout.

While an old-timer was pitching Pittsburgh back into the lead, two first-year men, Russ Van Atta and Don Brennan, kept the Yankees in front in the American league race after the team's veterans had been riddled by the Senators. The two rookies subdued the Red Sox in both ends of a double bill, 11 to 2 and 8 to 3, with their mates putting on the usual home run circus. Lazzari led the onslaught with seven consecutive hits, including two homers, for a total of 16 bases. Gehrig blasted his sixth and seventh circuit clouts of the year and Ruth knocked his fifth.

Rookies Star
Two other Rookies shared the spotlight, Bob Boken, second baseman from Kansas City, nicked the great Lefty Grove for a hit that gave the Senators a 5 to 4 verdict over the Athletics in 12 innings.

Ed Fallenstein, long and lean Rookie of the Boston Braves, blanked the Giants, 3 to 0 and handed Carl Hubbell his first defeat of the year with the aid of some fancy fielding and hitting by Rabbit Maranville. The Giants used 17 players in the second game but lost again, 8 to 4, and dropped to second place. They had won six straight.

Rogers Hornsby, visiting Chicago for the first time since he was canned as manager of the Cubs, squared accounts by blasting a home run that staked the Cubs to a 5 to 3 triumph over the Bruins in the second game of a twin bill. Chicago took the opener, 7 to 5.

Carroll Wins Third
Owen Carroll, the worst pitcher in the National league last year, won his third game for his new mates, the Brooklyn Dodgers, by taming the Phillies, 6 to 2. Frank O'Doul, batting champion, came out of his slump with a homer in the sixth inning when the Dodgers scored all their runs.

Paul Gregory pitched his first victory of the year, and Clint Brown suffered his initial setback as the White Sox beat Cleveland, 3 to 1. Kreski's homer with one on base broke up the game.

Detroit and St. Louis divided a double-header. The Browns laced four Tiger pitchers for 17 hits in annexing the opener, an 11 to 8 slugfest. Homers accounted for every score in the nightcap. Which went to Detroit, 5 to 1. Stone and Walker clubbed two top pur-huggers apiece, while West's homer was the only score made off Lefty Fischer.

Bessemer High Tops Washington

Pepé And Percie Allow George Washington Only Two Hits, Score 19-1

Bessemer High baseball team handed George Washington Junior High a 19 to 1 defeat Friday afternoon at the Bessemer field. It was the second time this year that Bessemer High had defeated the New Castle Junior High team.

Pepé and Percie on the mound for Bessemer held the Washington sluggers to two hits and each pitcher fanned 14 men. Donegan and Perrett on the knoll for Washington were hit hard in every inning.

Tropea Stars
Tropea, a freshman at Bessemer High was the star batsman with a homer and triple, while Marshall had two doubles and Stanish had three singles for Bessemer High. Donegan and Schooley led the Washington hitters.

The Bessemer High team will play the Shenango High team at 4 o'clock this afternoon at the Bessemer High field. Wednesday the Fredericks coached team will play at Wampum, in a County league engagement.

The score by innings:
Washington . . . 010 000—1 2 5
Bessemer . . . 212 710 x—19 18 0
Batteries: Bessemer—Pepé, Percie and Slavish; Washington—Donegan, Perrett, and Swisher. Umpire—Smith.

Derby Horses Being Shipped To Louisville

Annual Kentucky Derby To Be Run Saturday At Churchill Downs

(International News Service)
LOUISVILLE, Ky., May 1.—With the first contingent of Kentucky derby horses from the east en route here owners and trainers of western candidates, fired by the memory of Saturday's disaster, went to work with a zest today.

Three of the western candidates which failed dismally Saturday, Shepherd Boy, Flying Cadet and the filly, Technique, were declared out of the derby which will be run next Saturday at the Downs. Swivel likewise is out, leaving On Tap as the only filly likely to go to the post for the 3 year old classic Saturday.

The disastrous occurrences in the inaugural of the week end, which turned Red Whisk, Knockaway and Fair Rochester, among other western hopes, promised to make an ace-high race of the derby trial purse tomorrow afternoon at the Downs.

Hope To Even Score
This event will see Knockaway, Spicson, Strideaway, Interpreter, Red Whisk and Fair Rochester, going back to the wars in an attempt to erase the happenings of last Saturday.

A few of the western hopes that have been idle thus far will join them in this purse. They are Headplay and Charley O. Others will be at Top, Jefferson Park derby winner, Pre-War, Ben Minturn and Pingal.

On a good track yesterday Charley O., owned by Mrs. R. M. Eastman, was the only derby candidate to turn out for a serious-minded workout, traveling the six furlongs in 1:14 2-5. The truck was in fair shape. The 3-year-old has a vigorous following here.

Canton McKinley Has Strong Team

New Castle high school football team will have their work cut out for them Friday night of this week, when they tackle the powerful Canton McKinley high team in the second and final spring engagement of the 1933 season. New Castle disposed of Campbell, O., Memorial high 20 to 0 in the first spring game.

The Canton team coached by Jimmy Aiken, former Scott high, Toledo mentor will come to New Castle imbued with the desire to take the measure of the Bridenbaugh machine. Aiken, a former V. U. S. Davis cup team play with Mexico, George Lott played practice session at Mexico City yesterday. Picked to pair with John Van Ryn in the doubles, he defeated Wilmer Allison of Austin, Texas, 6-3, 6-3, 6-0.

Coach Phil Bridenbaugh is going to be a busy man this week. There are a lot of kinks to be taken out of the team before Friday night. There are a lot of holes to be filled up. The backfield will have to exercise more speed in getting their plays under way. The line functioned nicely against Campbell but still has a lot to learn.

Schmeling Must Dismiss Jacobs

Hitler Regime Would Have German Fighter Dismiss Jewish Manager

COMING BATTLE LOOKS LIKE FLOP

By DAVIS J. WALSH
International News Service Sports Editor
NEW YORK, May 1.—In line with the Hitler program but not with what the Hitler organization had to say about it last week, the word came to town today that Max Schmeling will be ordered to dismiss Joe Jacobs, his Jewish manager.

After June 8, the date of the Baer fight at the Yankee Stadium, if the alternative, it was said, would give Schmeling the doubtful privilege of remaining out of Germany, where he owns valuable property and estates.

In line with nothing in particular, it can be added that this might not have to be an order—after June 8.

Looks Like Flop.
The morning after might even be close enough. They'll be counting the house the morning after and, unless the figures revealed happen to be most attractive, the fighter is liable to deliver himself of a few well chosen remarks. Contrary to general opinion, Schmeling is not particularly interested in Jacobs' feud which caused him to break with Madison Square Garden and go it alone. He is interested mainly in two things, American money and the world's heavyweight championship. And this time he may get neither.

The last time he was here, he lost the heavyweight championship under Jacobs' direction. This time the title stays lost and all he may get is a beating. The Schmeling-Baer gate may or may not be \$150,000 but by the time one promoter, Jack Dempsey; one inside man, Tim Mara; one ball park, the Yankee Stadium; one fighter, Baer; one manager, Jacobs, and one charity, the Cancer Hospital, are taken care of, there won't be too much for Schmeling.

NEW TIRE SAVES LIVES

REMARKABLE NEW INVENTION MAKES SAFEST TIRE EVER BUILT 3 TIMES SAFER FROM BLOW-OUTS

NO EXTRA COST TO PUBLIC

THIS is the story of an invention that will save thousands of lives... maybe your life... and prevent thousands of those accidents that maim and cripple people.

When your speedometer reads 40, 50, 60 and 70—mile after mile... the heat inside the tire becomes terrific. Rubber and fabric begin to separate. A blister starts... and grows. Like an insidious tumor it gets bigger and bigger... Until BANG! A blow-out! And a terrible drag sets in... Like some unseen monster pulling your car off the highway!

How it prevents blow-outs

To protect you from blow-outs, every new Goodrich Safety Silvertown Tire has the amazing Life-Saver Golden Ply. This new invention resists terrific heat—rubber and fabric don't separate. Thus blisters don't form inside the tire. Blow-outs are prevented by overcoming the very cause of blow-outs before they start.

At grueling speeds on the world's fastest track, the new Goodrich Safety Silvertown, with the Life-Saver Golden Ply, lasted 3 times as long as first quality tires that did not have this feature. These SILVERTOWNS never blew. They were run till the tread was gone... but the Life-Saver Golden Ply refused to give!

Safest anti-skid tread

And that isn't all. Scientific tests with leading makes of tires prove that the Goodrich Safety Silvertown has the most skid-resisting tread on the road. Its squeegee drying action gives your car extra road-grip, and reduces danger of skidding to a minimum.

Get this Silvertown Tire on your car. Remember, it costs not a penny more than any other standard tire.

Tidal Wave Of Buying Hits Stock Market With Opening Today

PROFIT-TAKING FAILS TO CHECK

(International News Service)

NEW YORK, May 1.—With the dollar crashing again against all foreign currencies, another tidal wave of buying swept over the stock market today and sent leading issues surging \$1 to \$4 a share to new highs for the year.

The high speed ticker was swamped by enormous buying orders running to 20,000 shares and fell 15 minutes behind by the first half hour.

Wheat And Cotton

The frantic buying was duplicated in commodity markets where cotton soared \$2 a bale, wheat about 2 cents a bushel and silver nearly a cent an ounce. Speculators and foreign issues were buoyant in the bond market while government and other high grade obligations were quiet and easier.

The opening showed the inflation spirit was still rampant as huge buying orders poured into the market. Radio came out with an initial transaction of 15,000 shares but this was exceeded by General Motors when 20,000 shares were taken at 22, a new high for the year.

Tremendous profit-taking came in from the opening gun but this failed to make any immediate impression on the stamped Commodities likewise ran into profit-taking sales and lost part of their gains.

Rails Stronger

Oils and gold mining shares alone failed to participate fully in the rise. Utilities were led by American Telephone which spurred 3 points above par. American Can continued Saturday's uprush, jumping 3 points more.

Steel common and preferred were buoyant while R. H. Macy was spectacular in the merchandising group.

Atchafalpa and Union Pacific set a fast pace in the rails. Allied Chemical failed to recapture its old-time buoyancy and sagged later as the rise paused.

Foreign currencies went to new highs against the dollar. Sterling spurted more than 6 cents. Guilders more than a cent and others swept forward.

Curb stocks followed the big board while bank shares were easy and neglected.

Machine Hits Pole; Four Are Injured

Car Of Joseph Carbeau Is Damaged In Accident On Mercer Road

ELLWOOD CITY, May 1.—Joseph Carbeau of Second street, this city and three friends escaped serious injury and perhaps death when his car crashed into a telephone pole about two o'clock this morning on the Mercer road, about one mile out of Beaver Falls.

Details as to how the accident occurred were unavailable this morning. The car was badly damaged.

The four persons in the car were taken to the Beaver Valley General hospital at New Brighton, where their injuries were treated. Two of them seemed to suffer only from shock. Young Carbeau, who was driving the car, received bruises and lacerations about the face, head and hands.

Miss Margaret Kelley of Youngstown, O., seemed to have been the worst injured of the four, although hospital officials state she is not serious. The young lady is still confined to the hospital, while the other three were discharged early this morning.

Patrolman Schupp of the highway patrol at Beaver Falls was called to the scene and is investigating the accident today.

The speaker declared that previous to the adoption of the prison reform laws in 1912, the prisoners were more easily disciplined and revolts and uprisings were almost unknown.

An open discussion followed the address and many questions on prison life and work were answered by Mr. Patterson. The devotionals and song service were in charge of Miss Agnes Swartz.

SENIORS KEEP BANNER.

The student cabinet award which is given each six weeks to the class having the highest standing in scholarship, attendance, and the fewest number of tardy marks once more went to the senior class. This makes the third time the hard working seniors have won the banner and they are beginning to think that they own it—that when they leave it should leave with them. Perhaps next year the banner will be passed around a little more among the other classes.

CABINET KEPT BUSY.

Monday morning the student cabinet met in the music room for a most successful business meeting. A proclamation was drawn up which set Tuesday morning for "General Clean-up Morning" in the home rooms. This notice was issued to each room, following which all papers were cleaned out of books, desks, lockers, rooms, window sills, bulletin boards and any other room furniture were put to rights. The proclamation also suggested that this clean-up program should be carried out each week or as often as necessary until the close of the school term, and that students and teachers should make a special effort to beautify our school by supplying flowers for the various classrooms. If the student cabinet continues its beautifying program we'll soon have a school that the students won't want to leave when vacation time comes.
